

Employee Wellbeing Programme

Webinar Series

There is plenty of research to show that “happy” employees are productive. But the reverse is also true. In a culture where people can be productive, their wellbeing is boosted as they feel good about their achievements and can switch off after hours with less stress.

[A productive culture helps employees engage and improve their overall work life balance.](#)

At [beproductive.ie](#) our mission is to help people work smart with less stress and more balance. We designed this Wellbeing Programme for organisations that want to engage their employees, to help them boost their wellbeing.

This programme also provides an opportunity for leaders and managers to identify how they can enable productivity and wellbeing within their teams.

A series of Wellbeing & Productivity talks are delivered over a period of time to allow participants reflect on their work life balance. Tips and ideas are shared to help people make small practical changes to their approach to work and life in general.

Topics

The standard programme includes 3 Employee Wellbeing Talks. These sessions can be delivered on a weekly or monthly basis. We provide a menu of topics so that each organisation can customise their own programme.

The programme can be extended to 6-parts to suit your wellbeing goals and requirements.
